“ Brian!...it's your old friend Dan....I was searching online for you as we'd lost touch for so many years and found this...man what happened? Sorry to see that you've left us all so soon but I know where you are is the true life and much better than here. You were such a good friend for those years when we were young. You rode your Kawasaki all the way down to L.A.. to visit me after I moved there....really a great guy and I always admired your easy smile and charming way with people. I've missed you these years and sad that I won't be seeing your face again on this plane anyway. Take care my friend.
