“ Just learned today that your mother had passed away in June, I was really sorry to hear that news and can share a few memories I had with your mom. Your mother and father were good friends of my parents for as long as I can remember. One of my memories with your mother was when she lived in San Mateo and your father worked the night shift,. I would sometimes go over to there studio apartment and spend the night with your mother because she was a big scardy cat and didn't like to be alone. She would make me some Texas dishes, one being fried onion and potatoe sandwiches. She also introduced me to raw potatoes with lots of salt on them. We would get soda bottles to turn in so that we could purchase more, they lived around the corner from Peninsula Avenue and there was a small little mom and pop grocery store there that we would go to. i also remember your father having a motorcycle and was told later by my mother that he use to race at a race track in San Carlos. Both of your parents were always so nice to us kids and felt that they were always family. God bless all of you. Love, Sharon Ingram
